APRIL IS YOUTH MONTH

This celebration inspires young people to save their money at your credit union so they can enjoy the future they have been picturing.

\$5 Bonus!

SD3FCU will deposit the first 5 into each youth account.

Movie Drawing!

Children making a deposit during the month of April will be entered into a drawing for a Family Movie Night at Tinseltown USA.

\$2 A's!

Kids can bring their progress report to the credit union. \$2 will be deposited for each A they have.

Join us at the Annual Meeting!

At School District 3 Federal Credit Union, we've enjoyed success since our beginning in 1959. We've grown into a full-service financial institution, offering a complete range of products and employing the latest technologies. All the while, we never lost sight of our most important partner: YOU!

SD3FCU's Annual Meeting

Saturday, April 13, 2019 @1:00pm.

RSVP by April 6th

Credit unions are financial service cooperatives that are owned by their members, and your support has allowed us to grow year after year. This means we can offer low loan rates and competitive savings yields that bring you value, convenience, and the outstanding service you deserve.

Thank you for your loyalty and support, we look forward to seeing you at the Annual Meeting!

MEMBERS BEWARE

DO NOT SHARE!

Under no circumstances would Social Security Administration, other government entity, or any financial institution ever initiate emails or telephone calls requesting individuals to disclose or confirm their personal or financial information. Furthermore, should you be contacted by individuals or institutions purporting to be from any of these places, claiming to offer banking or other services, requesting monetary deposits, or phishing for personal information do not speak with them! You should assume that these individuals or institutions are engaging in fraud or identity theft and should be reported to your local police authority.

SHOP SAFER ONLINE

Simple ways to protect yourself when you shop on the internet.

RESEARCH

Before you buy something through a website, research to ensure the company is legitimate and their site is secure.

KNOW THE DETAILS

Before you place an order, check out their return policy and delivery details. If anything seems suspicious, or if you think the goods could be counterfeit, walk away from the purchase.

BE PROTECTED

Always maintain your software and virus protection and use strong passwords for your accounts.

USE A CREDIT CARD

Not only are you likely to be more protected on fraudulent purchases, it's also a lot easier to have a card replaced than to lose funds from your bank account.

CONNECT SECURELY

Try to avoid logging into sites through a public wi-fi; your standard data connection is safer and more secure.

RULE OF THUMB:

**IF YOU HAVE TO ENTER
PAYMENT INFORMATION FOR A
FREE TRIAL.... IT'S NOT FREE!**
